

THE CENTER FOR NANOSCALE MATERIALS

By the numbers

The Center for Nanoscale
Materials, a U.S. Department
of Energy Office of Science
user facility, provides expertise,
instrumentation and infrastructure
for interdisciplinary nanoscience
and nanotechnology research.

Academic, industrial and international researchers can access the center through its user program for both nonproprietary and proprietary research. Access is provided at no cost to users for research that is in the public domain and intended for publication.

150⁺

tools and capabilities

30+

tools and capabilities available for remote experiments

~45

scientific and user support staff

USERS FROM

31 states + D.C. in FY24

13 countries in FY24

75%

proposal allocation rate

3

calls for user proposals each year

~300

publications each year

~55
